

KING PALM SPECIALS

Archontophoenix alexandrae

Singles 17L, 1.6m Normally \$150

NOW \$100

OR 5 for \$440

Native to NSW and Queensland, they grow to a height of 8-20m in growing habitat. Smooth and straight trunks once established. We have singles, doubles and triples available in 17L bags.

- best planted in groves
- silvery undersides on fronds
- white/grey trunk
- prefer full sun to part shade, in sheltered positions
- prefers free draining soil, don't like to become water logged
- keep well watered while getting established
- approx grow to 6m+ in 10 years (at this stage they have a ribbed trunk)
- green crown shaft.
